COMPANY PROFILE

„We are a traditional
Czech manufacturer
of industrial valves.“

ARMATORY Group a.s.

A leading Czech manufacturer of industrial valves, supplier of piping and accessories, provider of services and counselling.

The company has been operating on the market since 2000. The tradition of this Czech company is based on more than fifty years of history and experience in production of valves in the Hlučín Region.

Since its foundation, the company has been developing very dynamically and has been investing in development and modern manufacturing technologies. ARMATORY Group is the only valve manufacturer in the Czech Republic which holds ASME Code III certificates for the design and manufacture of valves, components and parts for nuclear power industry according to US standards.

At present, the annual production volume makes 100,000 valves and 500,000 items of piping and accessories. Almost 70 % of the total production is exported to 70 countries worldwide through subcontractors.

VALVES FOR LIFE

Vision, Mission & Values

Vision

"ARMATURY Group aims at becoming an internationally accepted manufacturer of industrial valves, discovering new opportunities incessantly, supplying to new markets, and establishing long-term relations with its business partners."

Mission

"The mission of the company is to be a prospective and reliable partner in the fields of development, production, sales and servicing of industrial valves and supplies of piping and accessories both on the Czech market and abroad."

Company Values

Dynamics

"ARMATURY Group is a dynamic company, reacting flexibly to the requirements and wishes of its customers to meet their individual needs and ensure their maximum satisfaction."

Innovations

"The company supports in-house research and development, welcomes new challenges, and is involved in solution of even very complicated tasks. The company is doing its best to be one step ahead all the time."

Social Responsibility

"ARMATURY Group behaves responsibly towards the society. The company supports development of its personnel, builds a positive atmosphere inside the company, tries to behave ecologically towards the environment and contributes to the development of the Hlučín Region."

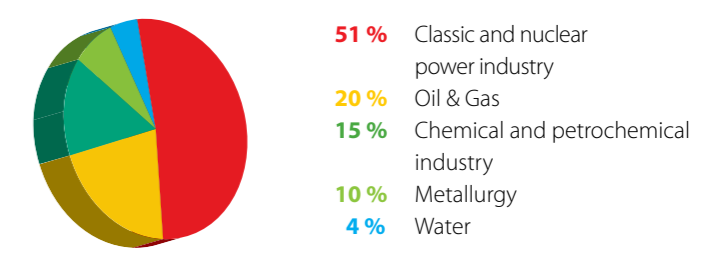

„We know where
we are heading for..“

Main Spheres of Business Activity

The major part of production and services is intended for conventional and nuclear power engineering, and oil & gas. However, the company has a broader orientation and operates also in other industries.

„We produce special valves for the severest conditions.“

Industrial Valves

The great advantage of the company is the broad range of products in the group of industrial valves.

ARMATORY Group offers the possibility of comprehensive deliveries of technological units to its customers which incorporate deliveries of complete systems of various industrial valves and piping, including design documentation and advisory services from the project development stage.

The company is also involved in development and production of special valves that are being used under the severest service conditions.

- 35 % Ball valves
- 21 % Butterfly and check valves
- 20 % Gate valves
- 10 % Globe valves
- 9 % Metallurgical valves
- 5 % Other valves

Piping and Accessories

The company is able to deliver complete systems of pipelines and pipework components in different materials according to EN, ASME/ASTM or other international standards, including installation and final surface finishing.

- Tubes and pipes
- Flanges
- T-pieces
- Forgings
- Fitting and sealing material
- Fabricated pipes
- Weldments

does not end
with the sale.“

Servicing and Repairs

ARMATURY Group provides guarantee and after-guarantee servicing for the entire range of industrial valves to its customers.

Availability of fully equipped service vehicles makes it possible to dispatch them immediately. The strong point of the company is a NON-STOP emergency servicing which is available 24 hours a day.

Servicing includes:

- Standard and complete overhauls and repairs of valves and actuators
- Installations
- Modernization of actuators
- Adjustments of valves and actuators at users' plants or in the workshops of the company
- Measurement, regulation and automation

VALVES FOR LIFE

Development and Design

The company employs a team of 40 designers, technologists, research and development engineers who constantly occupy themselves with various development tasks focused on sales effectiveness.

They are engaged in designing constructions of industrial valves that will increase service reliability, safety and service life of products.

They use the latest software and hardware to accomplish it, some of which are:

- 3D CAD system Solid Works
- Calculation system SOLIDWORKS SIMULATION
- SOLIDWORKS FLOW-SIMULATION
- Electronic archive EPDM Works

Production

ARMATORY Group has an extensive manufacturing area. The company constantly invests in new machinery and technological equipment, test shops, storage facilities, new technologies of coating, and optimizes logistics processes.

The company possesses the following machinery:

- Numerically controlled CNC machines
- Horizontal CNC machining centres
- Turning and boring lathes
- Automatic welding and surfacing machines
- Annealing furnaces
- Blasting box
- Paint shop
- Electronically controlled storage system
- Test equipment

Quality

ARMATURY Group endeavours to develop and apply a quality management system and to improve its effectiveness continually.

The company holds a variety of certificates needed for production, export and operation of valves under demanding conditions of the Czech market as well as foreign markets.

- Quality management system certificate according to EN ISO 9001:2015
- Environmental management system certificate according to EN ISO 14001:2015
- Occupational health and safety management system certificate according to BS OHSAS 18001:2007
- ASME BPVC III - N certificate
- ASME BPVC III - NPT certificate
- Quality management system certificate for welding according to EN ISO 3834-2
- Product certificates according to PED 2014/68/EU
- API SPEC 6D certificate for petroleum industry for ball valves
- Certificate for ball valves according to EN 14141: 2013 for the natural gas transportation by pipeline
- Certificate for ball valves according to DVGW for the natural gas transportation according to German legislation
- TA-Luft certificate - assessment of emission limits for valves
- Certificate according to Technical Reglement TP TC 032/2013 for devices operating with overpressure and according to TP TC 010/2011 on the safety of machinery and equipment for the market in the Eurasian Union
- SIL certificate - Safety Integrity Level
- OIT certificates for delivery of high-pressure valves to nuclear power plants in Russia
- FIRE SAFE certificate for fire tests

„We realize perfectly that quality is indispensable today..“

People

ARMATURY Group ranks among the important and stable employers in the Opava Region. The company sees its biggest capital in its employees.

The present number of employees of the company is 600 persons, of whom 55 % are white-collar employees and 45 % are blue-collar employees. Although the number of employees continues to rise, the fluctuation has remained at a low level.

1 % Within 20 years
 16 % 21 - 30 years
 29 % 31 - 40 years
 30 % 41 - 50 years
 22 % 51 - 60 years
 2 % Over 60 years

The company is interested in systematic education of its employees. Emphasis is laid on training programmes – courses focused on strengthening of communication and other interpersonal skills and on improvement of knowledge of foreign languages and technological skills.
